

# OHIO VOLUNTEER FIREFIGHTER CERTIFICATION TRANSFORMATION PROPOSAL

**Effective June 30, 2030, the 36-hour Volunteer Firefighter certification course will no longer be offered by the Division of EMS. No initial (new) Ohio Volunteer Firefighter certificates will be issued by the Division of EMS after June 30, 2030.**

All currently certified Ohio Volunteer Firefighters in good standing will be able to renew their Volunteer Firefighter certificate throughout this transformation period and after June 30, 2030, so long as all renewal requirements are met on or before the expiration date of the certificate. **Any Ohio Volunteer Firefighter certificate that expires after June 30, 2030, will not be reinstated.**

There are several options for currently certified Ohio Volunteer Firefighters to transition to other levels of fire service providers identified in NFPA 1010 as outlined below. These changes are consistent with recommendations from Governor DeWine's Ohio Task Force on Volunteer Fire Service from January 5, 2023, and address recommendations of the National Transportation Safety Board to revise the Ohio Volunteer Firefighter certification standards to meet the NFPA 1010 standard for professional firefighters. The Firefighter and Fire Safety Inspector Training Committee of the EMFTS Board support these recommendations and are overseeing development of this transformation process.
